

Fachseminare für die Versicherungswirtschaft

Introduction to Insurance Management

The seminar gives beginners and career changers the opportunity to efficiently gather basic key knowledge and specific information relevant for the insurance industry. After introducing the insurance business model, you will get a thorough and comprehensive insight into areas and topics of insurance management. It is the seminar's objective to give you the necessary competencies and an extensive overview of the diverse insurance-specific topics. We attach great emphasis on showing the relation between the different topics and we also introduce current and demanding areas in terms of content like risk management and Solvency II.

Seminar target You will get a very efficient and well-structured overview of the most important topics in the insurance sector.

Main elements

- > The insurance business model
- > Update of the latest developments in the insurance market
- > Specifics of the industry's areas
- > Capital assets of an insurance company

Introduction to Insurance Management

Speaker

Michael Hainz as a Client Manager at the Swiss Re Europe serves customers in the German insurance industries. Prior to his work in Germany, he was responsible for Swiss Re Europe as a Client Manager in Scandinavia, Baltic States and for the London market. He is fluent in English and is also familiar with the English insurance terminology. After graduating from the TU München in economic geography, he received his degree Executive Master of Insurance (EMI) at the LMU München. He dedicated his free time to the InsurTech Startups at Swiss Re Europe in Munich.
